This indemnity shall survive the termination of this License Agreement for any reason. In the case of Licensee being the indemnified party, this indemnity shall not apply to any specific Licensed Materials if Licensee or any of its Members has amended the Licensed Materials in any way not permitted by this

License Agreement and such amendment is material to the third-party claim. No limitation of liability set forth elsewhere in this License Agreement is applicable to this indemnification.

5.5 LIMITATIONS ON CLAIMS

Irrespective of the cause or form of action, the aggregate liability of a party for any claims, losses, or damages arising out of any breach of this License Agreement by such party shall in no circumstances exceed the amount of the Fee paid by the Licensee to the Licensor under this License Agreement in respect of the term of this License Agreement during which such claim, loss or damage occurred. The foregoing limitation of liability and exclusion of certain damages shall apply regardless of the success or effectiveness of other remedies.

6. LICENSOR'S PERFORMANCE OBLIGATIONS

6.1 AVAILABILITY OF LICENSED MATERIALS

Licensor shall, upon the subscription start date of the License Agreement as specified in Schedule 1, make the Licensed Materials available to the Licensee and the Members.

The Licensor shall provide sufficient information to the Licensee and Members to enable Authorized Users to access the Licensed Materials.

6.2 COMPLETENESS OF CONTENT

In the event that the content of the Licensed Materials contains materially less material than in any equivalent print editions (not including front and back material), within a reasonable time period following receipt of Licensee's written request specifying in detail what material is missing, Licensor shall exercise reasonable efforts to provide Licensee with any such missing material, if reasonably possible.

Licensor shall exercise reasonable efforts to provide to the Licensee before December 31 of each year within the subscription period, in KBART-compliant format as appropriate, an itemized title list that specifies the Licensed Materials accessible to the Members for the upcoming calendar year. In the event that there are optional portions contained within the Licensed Materials to which all Members do not subscribe, the Licensor shall exercise reasonable efforts to provide separate lists for each option. Licensor shall exercise reasonable efforts to provide such title lists to third-party vendors of Knowledge Bases on an ongoing and timely basis.

6.7 CAPACITY

Licensor shall ensure that the Platform has adequate capacity and bandwidth to support the usage by the Licensee and Authorized Users at a level commensurate with the standards of availability for information services

of similar scope operating via the World Wide Web, as such standards evolve from time to time over the term of this License Agreement.

6.8 INTEROPERABILITY

Licensor shall exercise reasonable efforts to ensure that Licensed Materials will be accessible and interoperable with prevailing Web browsers including, at a minimum, the most recent two major releases (current release and one release prior). Any upgrades or functional changes to the Platform will be implemented in a manner that ensures that, at a minimum, the most recent two major releases of prevailing Web browsers at that time will continue to interoperate with the Platform and be able to access, retrieve and display the Licensed Materials.

6.9 SERVICE INTERRUPTION

If the Licensed Materials fail to operate in conformity with the terms of this License Agreement, Licensee shall immediately notify Licensor in writing, and Licensor shall promptly use reasonable efforts to restore access to the Licensed Materials as soon as reasonably possible. In the event that Licensor fails to repair the nonconformity in a reasonable time, Licensor shall (subject to agreement by the Licensee, but without limiting any other remedies available to the Licensee under this Agreement):

- provide an additional discount or credit equivalent to the amount of the excessive downtime to the product on the next renewal; or
- extend the license term by an amount of time equal to the nonconformity; or
- provide a refund of the Fee corresponding to the amount of downtime.

6.10 TRAINING AND SUPPORT

Licensor shall offer installation support to the Licensee and each of the Members, including assisting with the implementation of any Licensor software. 6.12 MODIFICATION OF LICENSED MATERIALS

Licensor may make modifications to Licensed Materials and Platform(s) during the term of this Agreement. If, in the reasonable opinion of the Licensee, any such modification renders the Licensed Materials substantially less useful in a material respect to the Members or its Authorized Users, Licensee may seek to terminate this License Agreement for breach pursuant to the termination provisions in section 10 [Term, Renewal, and Termination] without liability placed on Licensor. In the event that Licensor anticipates or makes significant modifications to the Licensed Materials and Platform(s) that will render the Licensed Materials substantially less useful in a material respect to the Members or their Authorized Users, Licensor shall exercise reasonable efforts to notify Licensor of such modifications.

6.12.1 MIGRATION TO OTHER FORMATS

Licensee understands that, from time to time, the Licensed Materials may migrate to, or be available in, other formats. If Licensor develops new delivery or download methods during the term of this License Agreement, this service may be made available to Members and Authorized Users at no additional charge if reasonably possible as determined by Licensor in its sole discretion. Licensor will ensure the content and metadata provided complies with the then-current recognized international standards.

6.12.2 WITHDRAWAL OF MATERIALS

Subject to clause 6.12.3 [Transfer of Ownership of Licensed Materials], Licensor reserves the right at any time to withdraw from the Licensed Materials any item or part of an item for which it no longer retains the

right to publish and for which Licensor has been unable to meet the requirements of clause 5.1 [Licensor Representations], or any item or part of an item for which Licensor has reasonable grounds to suspect infringement of copyright or defamation. If the withdrawn material represents more than five per cent (5%) of the Licensed Materials then available under this License Agreement, Licensor shall make a pro rata refund of part of the Fee to Licensee, taking into account the amount of material withdrawn and the remaining unexpired portion of the subscription period as outlined in Schedule 1.

6.12.3 TRANSFER OF OWNERSHIP OF LICENSED MATERIALS

If Licensor sells or otherwise transfers all or any part of the Licensed Materials, Licensor will take such reasonable steps as are necessary to ensure that Licensee's and the Members' rights and access to such Licensed Materials under this Agreement, including any Perpetual Access rights, are maintained and continue uninterrupted by such sale or other transfer, and if such continued access is not reasonably possible, Licensor shall issue a pro-rata refund to Licensee. Licensor will comply with the NISO RP-24-2015 Transfer Code of Practice ("NISO Transfer Code of Practice") (formerly, the UKSG Transfer Code of Practice) in connection with any sale or other transfer of Licensed Materials that constitute journals.

6.12.4 ADDITION OF NEW MATERIALS

Licensor may offer additions to the Licensed Materials not otherwise identified in Schedule 1 during the term of the License Agreement. Any fees arising from the addition of new materials, not otherwise identified in Schedule 1, shall be the subject of negotiation and Licensor and Licensee must mutually agree and consent in writing to an increase (if any) in the Fee for subsequent years arising from the addition of new materials to the Licensed Materials.

6.13 COLLECTION OF USAGE DATA

Licensor shall collect Usage Data according to the most recent release of the Project COUNTER Code of Practice and specify such reporting in Schedule 5. Such Usage Data shall be compiled in a manner consistent with applicable privacy and data protection laws and as may be agreed between the parties from time to time, and the anonymity of individual users and the confidentiality of their searches shall be fully protected. In the case that the Licensor assigns its rights to another party under clause 11.3 [Assignment and Transfer], the Licensee may at its discretion require the assignee either to keep such usage information confidential or to destroy it.

6.14 DISCLOSURE AND SHARING OF USAGE DATA

Licensor shall disclose to the Licensee and each member Usage data that is collected relating to the Licensee or Member as requested in writing, provided that the disclosure of such data fully protects the anonymity of individual users and the confidentiality of their searches as required by applicable privacy laws.

6.16 OPEN ACCESS OPTION

Intentionally deleted.

6.17 CLICK-THROUGH LICENSE

In the event that Licensor uses a Click-Through License, Licensor shall provide Licensee with notice of, and an opportunity to comment on, such terms prior to their implementation or revision to ensure consistency with this License Agreement. In the event of any conflict between the terms of such Click-Through Licenses and this License Agreement, the terms of this License Agreement shall prevail and, without limiting the foregoing, the Licensor shall not enforce any provisions of the Click-Through Licenses that conflict with this License Agreement.

6.18 DIGITAL RIGHTS MANAGEMENT TECHNOLOGY

In the event that Licensor utilizes any type of Digital Rights Management Technology to control the access or the usage of Licensed Materials, Licensor agrees to notify Licensee of any technical specifications. In no event may such Digital Rights Management Technology be used in such a way as to limit the usage rights of a Licensee or any Authorized User as specified in this License Agreement or under applicable law. Any Digital Rights Management Technology shall be applied in compliance with this License Agreement and applicable privacy and data protection laws.

6.19 DIGITAL WATERMARKING TECHNOLOGY

If Licensor utilizes any type of Digital Watermarking Technology for any element of the Licensed Materials, Licensor agrees that watermarks or other notices will not be visible to the human eye and will not degrade the quality of the presentation of the document. These watermarks or other notices shall not contain information pertaining to Authorized Users, including account numbers or IP addresses. Any Digital Watermarking Technology shall be applied in a manner consistent with applicable privacy and data protection laws and as may be agreed between the parties from time to time, and the anonymity of individual users and the confidentiality of their access or usage of the Licensed Materials shall be fully protected. If watermarks or other notices are used, Licensor agrees to notify Licensee of any technical specifications.

6.20 MARC RECORDS

6.21 PRESERVATION OF LICENSED MATERIALS

Licensor will make available a digital archive of the Licensed Materials and associated metadata on its servers, and with at least one of the following third-party archiving services: Portico, CLOCKSS, LOCKSS, Scholars Portal, or another mutually agreed-upon archiving service, and inform the Licensee on which of the archiving services the archive may be found. The archive will be maintained in perpetuity, with its format converted from time to time as appropriate if the technology used for storage or access changes. If the Licensor is unable to continue to provide Perpetual Access from its servers, the Licensee is entitled to access the archive from the third-party archiving service to fulfill Clauses 2.2 [Perpetual Access Rights] and 10.5.3 [Continued Access to Licensed Materials].

6.22 PERSISTENT LINKS

The Licensor reserves the right to temporarily suspend any Member's access to Licensed Materials for infringement of the Licensor's intellectual property rights in the Licensed Materials or for a breach of the terms of this License Agreement that threatens either the performance or security of the Platform. Forthwith, after suspending such access the Licensor shall issue a notice to the Member and the Licensee of the breach, specifying the activity of the Member that caused the breach. The Licensor shall forthwith restore access to the Member upon receipt of notice that such activity has ceased and that the Member has made reasonable efforts to protect against recurrence of such activity.

The Licensor may terminate this Agreement by notice to the Licensee if the Licensee defaults in making payment of the Fee as provided in this License Agreement and fails to remedy such default within sixty (60) days of notification in writing by the Licensor.

10.2.2 EARLY TERMINATION FOR BREACH

Either Licensor or Licensee may terminate this Agreement by providing written notice to the other party if such other party commits a material or persistent breach of any term of this License Agreement and the breaching party fails to remedy the breach within sixty (60) days of receipt of written notice by the non-breaching party.

If a Member commits a material or persistent breach of the terms of this License Agreement and the Member fails to remedy the breach within sixty (60) days' of receipt of written notice from the Licensor to the Member and the Licensee, or the Member fails to commence and diligently pursue steps to remedy the breach within sixty (60) days' receipt of written notice from the Licensor to the Member and the Licensee, the Licensor may terminate the license and rights granted to the Member pursuant to this License Agreement by giving notice of termination to the Member and the Licensee. Upon the expiry of the notice period, the Licensor may discontinue providing the Member access to the Licensed Materials for the remainder of the term of the License Agreement.

10.2.3 EARLY TERMINATION FOR LICENSOR INSOLVENCY

The Licensee may terminate this Agreement by notice to the Licensor if the Licensor becomes insolvent, admits insolvency or a general inability to pay its debts as they become due, has appointed a receiver or administrative receiver over it or over any part of its undertaking or assets, passes a resolution for winding up other than a bona fide plan of solvent amalgamation or reconstruction, files a petition for protection under any applicable bankruptcy code, or has filed against it or becomes subject to an insolvent petition in bankruptcy or an order to that effect.

10.2.4 EARLY TERMINATION FOR FINANCIAL EXIGENCY

The Licensee may terminate this License Agreement if public funding of the Licensee or funding of the Licensee by the Members is materially reduced and the Licensee thereby becomes unable to pay future amounts payable pursuant to this License Agreement. The Licensee will give the Licensor notice of such termination and this License Agreement shall terminate effective sixty (60) days after the giving of such notice if the Licensee has failed to pay the Fee for the calendar year in which such notice was given, or if the Licensee has paid the Fee for the calendar year in which such notice was given, January 1 of the following year.

10.2.5 EARLY TERMINATION REFUND

Upon termination of this License Agreement by Licensee under Section 10.2.2 [Early Termination for Breach] or Section 10.2.3 [Early Termination for Licensor Insolvency], the Licensor shall forthwith refund the proportion of the Fee that represents the paid but unexpired part of the term of this License Agreement.

10.2.6 EARLY TERMINATION BY A MEMBER

The performance of a Member of their obligations under the License Agreement shall be subject to and contingent upon the availability of funds provided, allocated, or allotted in institutional budgets for the purpose of the License Agreement for the current and future license term. Any Member may, at its option, provide notice to the Licensor and Licensee, by September 30th of each applicable calendar year within the License Agreement, of the non-availability of such funds and the intent to terminate their participation in the License Agreement beginning on January 1st of the forthcoming year.

If a Member executes this option, no refund of payments already received by the Licensor will be owed to the Member. The determination of whether funds are available shall be made in the sole discretion of the applicable Member. The termination of participation by any Member will not constitute a default or a termination of participation of any other Members under the License Agreement and shall not be grounds for any increase in fees payable by other Members. Upon termination, a Member has the ability to execute their rights under clause 10.5.3 [Continued Access to Licensed Materials].

10.3 RENEWAL OF TERM

This License Agreement shall be renewable at the end of the current term if agreed in writing by both parties prior to the termination of this License Agreement.

10.4 EXTENSION OF TERM

This License Agreement may be extended for a limited period of time at the end of the current term if agreed in writing by both parties prior to the termination of this License Agreement, or due to cause as outlined in section 6.8 [Service Interruption].

10.5 TERMINATION

10.5.1 NOTIFICATION OF TERMINATION

Upon termination of this License Agreement, the Licensee shall immediately notify the Members.

10.5.2 TERMINATION RIGHTS

Upon termination, all rights and obligations of the parties automatically terminate except for rights and obligations in respect of Licensed Materials for which Perpetual Access is granted in clause 2.2 [Perpetual Access Rights], for rights and obligations in respect of a refund under clause 10.2.5 [Early Termination Refund], if applicable, and for rights and obligations under such other provisions that, by their nature or their terms, survive termination.

10.5.3 CONTINUED ACCESS TO LICENSED MATERIALS

Upon termination of this Agreement, Licensor will provide continued access to the Licensed Materials for which perpetual access was granted in this Agreement unless Licensor determines that it is unable itself to provide such continued access. In such case, or at any time during the term of this Agreement upon written request by Licensee, Licensor shall enable the Licensee to have continued access to the perpetual content by providing it in digital format including associated metadata in a form and format as designated by Licensee for the Licensor to locally host or the Licensor shall make arrangements for the Licensee to have access to the perpetual content via a third party archiving organization such as Portico, LOCKSS or the Royal Dutch Library as designated by the Licensee. Licensee acknowledges and agrees that in the event of such self-hosting or third-party hosting, Licensee's perpetual use of the Licensed Material shall continue to be governed by the terms and conditions of this Agreement. Licensee acknowledges and agrees that such archival copy of the perpetual content may not contain all the links and other features and functionality associated with the Licensed Materials provided pursuant to this Agreement.

The archival copy from the Licensor shall be provided without Digital Rights Management Technology in a mutually agreeable medium suitable to the content, but may not contain all the links and other features and functionality associated with the Licensed Materials pursuant to this License Agreement.

11.6 SEVERABILITY

The invalidity or un-enforceability of any provision of this License Agreement shall not affect the continuation or enforceability of the remainder of this License Agreement.

11.7 WAIVER OF CONTRACTUAL RIGHT

Either party's waiver, or failure to require performance by the other, of any provision of this License Agreement will not affect its full right to require such performance at any subsequent time, or be taken or held to be a waiver of the provision itself.

11.8 NOTICES

Any notices to be served on either of the parties or on a Member by the other shall be sent by registered mail, electronic mail, or courier to the address of the addressee as set out in this License Agreement or to such other address as notified by either party to the other as its address for service of notices. The Licensor further agrees that Licensee may, at its sole discretion, bring any action or proceeding relating to this License Agreement in a court of competent jurisdiction in the Province of Ontario, Canada or in any jurisdiction in which the Licensor is incorporated, registered or resident. CURRENCY FLUCTUATION SCHEDULE

The parties hereto hereby agree that on September 30th of each year of the term of this Agreement, they will review the exchange rate for the U.S. Dollar in comparison with the Canadian Dollar as posted at noon ET by the Bank of Canada, and that posted rate will be used to govern the annual percentage increase of the Fee for the following calendar year, January 1, 2022 through December 31, 2022. This exercise will repeat on September 30th of each year of the term of the Agreement. The discount off the Fee is based on applying the appropriate discount/increase to the already negotiated annual increase, with, as an example, .78 being the baseline or continued norm for the negotiated increase as outlined in the deal, which equates to a 3% annual increase. Also, as such, the chart below only represents a portion of the schedule, but it is understood and assumed that the discount chart below will continue to extrapolate out on both ends, and thereby represents risk to both parties with regard to the influence the exchange rate may have in either lowering or raising the annual Fee increase to coincide with the exchange rate identified on September 30th of the preceding year.

SCHEDULE 6

OPEN ACCESS MATERIAL WORKFLOWS AND SERVICES

A schedule dated January 1, 2021 to the License Agreement dated January 1, 2021 between **SAGE Publications, Inc.** and **CANADIAN RESEARCH KNOWLEDGE NETWORK.**

1) Eligible Corresponding Author identification

- (a) During the submission of the article, the submitting author is responsible for correctly identifying the institutional affiliation of all authors, to identify the corresponding author and to provide institutional email addresses. When entering an institutional affiliation Licensor provides the author with suggested matches during this process. The author is responsible for selecting the appropriate match.

Licensor will use this match to identify an Eligible Corresponding Author as an Authorised User of the Member using Ringgold ID matches. The Member is responsible for providing and updating the list of applicable Ringgold IDs for Licensor to use in matching.

In the event of no match being found, Licensor will attempt to identify an Eligible Corresponding Author using the corresponding author's email address domain. The Member is responsible for providing and updating the list of applicable email domains for Licensor to use in matching.

- (b) If the author was not identified as eligible due to incomplete, inaccurate, or conflicting affiliation data provided by the submitting author, Licensor will not be required to convert the article to Open Access at a later date but may offer to do so at Licensor's sole discretion.
- c) If the Eligible Corresponding Author was not identified as eligible due Licensor's failure and then Licensor publishes the article under a traditional subscription only format, Licensor shall be responsible to convert the article promptly so that it is published open access.
- d) Members may opt to use a pre-approval workflow to review all Eligible Articles before the offer of Open Access Article publishing is made to the authors. Members opting for this workflow will need to register as a "Centralised Bill Payer" and will be notified by email of an Eligible Article being identified and will have 5 days to review the article and approve or reject the eligibility of the article. Articles approved will then be communicated to the authors as detailed below. Articles rejected by the Member will no longer be considered Eligible Articles and the author will not be offered Open Access Article publication under this Agreement.

2) Licensor offer of Open Access publishing of Eligible Articles in Hybrid Publishing Titles

- (a) Licensor agrees to permit Eligible Corresponding Authors to publish Eligible Articles in Hybrid Journals listed in Schedule 1 as Open Access Articles, with no APC payable, in accordance with the provisions below.
- (b) Upon an Eligible Article being accepted in a Hybrid Publishing Title, with an Eligible Corresponding Author entered in Licensor's production system, all authors will be contacted by the Licensor to inform them of their right to publish the Eligible Article as Open Access with no direct cost. This notification will make clear that Eligible Authors do not need to pay APCs for Open Access Articles published in Hybrid Journals.
- (c) Transacting author (who can be any of the Article authors, including the Eligible Corresponding Author) enters the Licensor's open access portal and confirms acceptance of Open Access publishing for the Eligible Article.
- (d) Transacting author confirms their identity and the copyright ownership status of the Eligible Article.
- (e) Transacting author will only be offered a Creative Commons licence Attribution 4.0 International or Creative Commons licence Attribution Non-Commercial 4.0 International (CC BY or CC-BY-NC). Licensor's open access portal will provide explanatory text alerting author to why licence(s) is displayed. Author may contact Licensor's OA customer service if another licence is required.
- (f) Transacting author digitally signs the Open Access licence
- (g) If the transacting author rejects Open Access publishing of the Eligible Article, the Eligible Article will be published in a traditional subscription only format, not as Open Access.
- (h) If a transacting author does not respond to the Licensor offer of Open Access publishing, a reminder will be sent by the Licensor to all authors after 7 days.
- (i) If the transacting author does not digitally sign the Open Access licence (d – above) within 14 days, the offer of Open Access publishing will close and the Eligible Article will be published in a traditional subscription-only format, and not as Open Access, unless the author contacts Licensor to request the offer be re-opened before article proofs have been issued, as outlined in j) below.
- (j) Eligible Corresponding Authors who have rejected Open Access publication of their Eligible Article (Hybrid) or who have not signed the Open Access licence after 14 days may contact Licensor's open access customer service team to request the offer be resent at any time before article proofs have been issued.

Once article proofs have been issued, the Eligible Corresponding Author may request conversion to Open Access from Licensor's open access customer service team and Licensor shall convert the Eligible Article (Hybrid) to an Open Access format, upon payment of a fee of £400 by the transacting author or their nominated bill-payer and upon the transacting author signing the Open Access licence.

- (k) For any Hybrid Journals that move to a Gold Open Access publishing model during the course of this Agreement, such journals will continue to be available for Open Access publishing, at no APC payable, for the Term of this Agreement.

3) Open Access (Gold) Publishing

- (a) Eligible Corresponding Authors may publish their Eligible Articles in a Gold Open Access Journal listed in Schedule 1 as a Gold OA Publishing Title, with a discount of 40% of the journal's listed APC, in accordance with the provisions below.

For the avoidance of doubt, this discount may not be combined with any other available discount. If other discounts are available to the Eligible Article, the highest single discount will be applied.

- (b) Licensor verifies author is an Eligible Corresponding Author and issues an invoice for the current list rate Article Processing Charge, inclusive of the agreed 40% discount. If a higher discount is available to the Author, the higher discount will be applied instead.
- (c) workflow will be as described above in section 2.
- (d) the transacting author will only be offered the Creative Commons licence Attribution 4.0 International or Creative Commons licence Attribution Non-Commercial 4.0 International (CC BY or CC-BY-NC) where the journal accepts that license. Author may contact Licensor open access customer service if another licence is required.
- (e) Licensor publishes Eligible Article as Open Access upon payment of the APC by the Eligible Corresponding Author, transacting author or their nominated bill-payer.
- (f) For any articles where the Eligible Corresponding Author does not identify or question their eligibility for the APC discount until after they have paid their APC at the regular (undiscounted) amount, Licensor will not be able to refund or partly refund the APC for the article.

4) Open Access Reporting

Institutional reporting is available via Licensor's online portal for any institutions registering as a "Centralised Bill Payer" at the commencement of the Agreement. This reporting will cover all:

- (i) Eligible Articles in Hybrid Publishing titles where the Member has selected the pre-approval workflow (detailed in 1(d) above), and
- (ii) Eligible Articles in Gold OA Publishing Titles once available as outlined in 2(d) where the Member has selected the pre-approval workflow (detailed in 1(d) above) or where the author has selected the Member as bill payer.

Minimum standards for data provided by these reports are shown below in 4(c)

- (g) Institutional reporting will be developed during the Term and will extend coverage to all Eligible Articles, Gold and Hybrid identified as described in 1(a) – 1(c) under both the standard and pre-approval workflow. This will be provided as it becomes available.
- (h) Licensor provides the following information as a minimum for all manual reports and reports provided through the Online platform:
 - a) name of the Eligible Corresponding Author
 - b) name of the Member
 - c) Funder if provided by author
 - d) date of acceptance of accepted article
 - e) date of publication (once published)
 - f) journal title
 - g) ISSN/E-ISSN
 - h) accepted article title
 - i) article type
 - j) DOI
 - k) If the Transacting Author has accepted OA publishing or not
 - l) Open Access Licence
 - m) list price, discount and final prices for articles published in Gold Open Access

5) Provision of Information: Subscribing Members and Open Access Schemes

- (i) Licensor shall provide reasonably sufficient information to enable Eligible Corresponding Authors to benefit from its open access schemes as described in this Schedule 6.

6) Additional Information

- (i) For each Open Access Article, the Licensor shall state the applicable Creative Commons licence. This shall include the information on the Creative Commons licensing terms that apply to each version of the Article and making the relevant Open Access Article, together with the applicable Creative Commons licence, available on the open web without any requirement for authentication in order to obtain access or to download the Article. Each Article shall include any disclaimer or other statements required by the Licensor in compliance with its policies for release on the open web. Licensor shall make any such policies readily and openly accessible on its website, or by

other reasonable means to draw them to the attention of authors submitting any Open Access Article.

- (ii) For articles that have received Funder support by a Funder that stipulates the assignment of specific licensing terms, such as the Creative Commons CC BY licence (current version available at: <https://creativecommons.org/licenses/by/4.0/>), the Licensor shall endeavor to ensure that its licensing terms are set in accordance with the requirements of the Funder. The Licensor should make it clear that if an author chooses a licence other than CC-BY, the published article may not be compliant with the relevant Funder’s policy, which may potentially result in the Funder not covering the cost of the article processing charge.
